SAPPORO

Overview of Results in First 9 months of 2011 –Consolidated

Third-quarter sales rose sharply as gains at the Soft Drinks Business and the consolidation of the POKKA Group compensated for declines at the Japanese Alcoholic Beverage and Restaurants businesses, partially due to impact of the Great East Japan Earthquake.

Operating income rose on cost reductions in all segments and contributions from the POKKA Group and the real estate business.

Third-quarter extraordinary losses included ¥1.0 bn related to asset retirement obligations and ¥4.7 bn in disaster-related losses.

Third-quarter net income consequently decreased 2.7 bn vs. the year-earlier.

SAPPORO

Results for the first 9 months: Japanese Alcoholic Beverage Business (1)

Results highlights

Sales down on Earthquake impact.
Operating income was around the same as the previous year with lower capital investment and other cost reductions.

Key points in business plan: implementation status

1. Bolster brand strength by focusing on core products

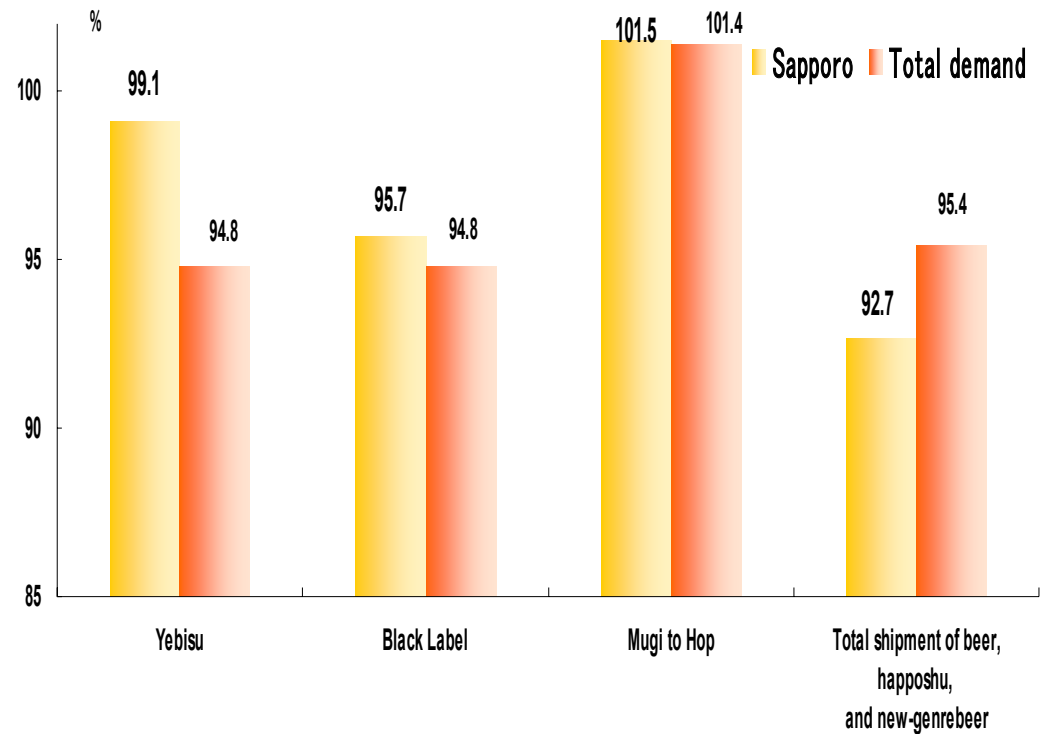

- Bolstering brand strength by concentrating resources on Yebisu Beer, Sapporo Draft Beer Black Label, and Muji to Hop
- By holding back on new product launches and focusing on 3 core brands, as in 2010, we achieved volume growth for those 3 brands above the industrywide YoY growth for Jan-Sep. Need to focus on 3 brands was increased by earthquake's impact.

Total shipments of Sapporo beer, happoshu, and new-genre beer products, however fell 7.3% YoY, a sharper drop than the 4.6% decline industrywide

Business Strategy: Outlook for International Expansion

Promote unique international strategy through organic growth and local partnerships

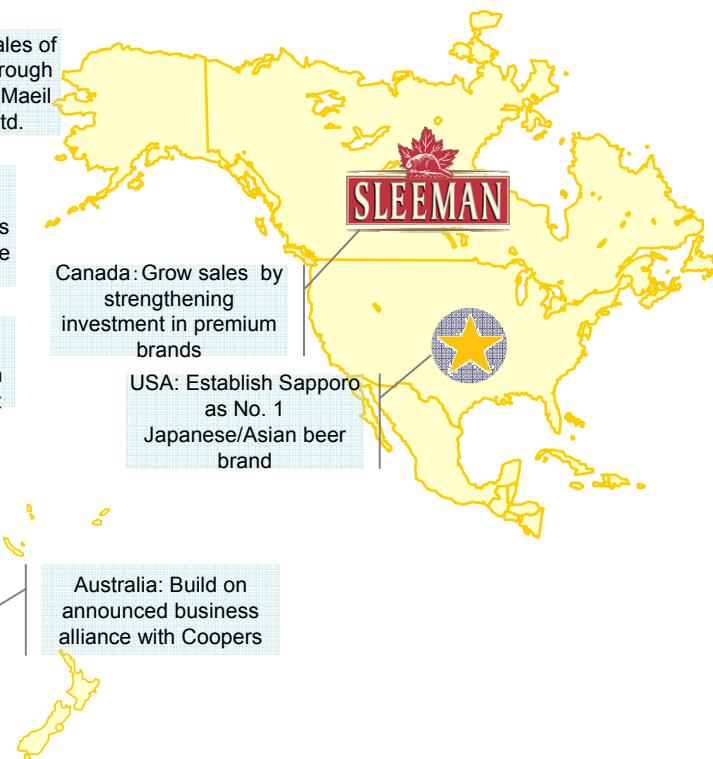

Unique International Expansion Strategy

- An area strategy organized around two pillar domains, North America and Asia • Oceania
 - Achieve balanced growth in both regions through organic growth and alliances with local partners

Asia • Oceania

North America

Strengthening Southeast Asian business base by activating synergies with POKKA

- Use high brand recognition and sales channel in Singapore to expand sales of Sapporo (currently "Black Label") products
 - Sales volumes have already hit stride
- Plan to sell Sapporo products in Southeast Asian countries beyond Singapore after start of Vietnam plant (projected in Autumn 2011) by using POKKA's sales network

Acquisition and alliance strategies aimed at enhancing Sapporo's brand penetration

- Orient international expansion towards specialized, premium products
- Recent example : business alliance with Coopers Brewery in the Oceania region (licensed production and sales of Sapporo brand products)
- Promote overall brand within Asia by establishing manufacturing base in Australia

Business Strategy: Domestic Business Initiatives

Strengthen profitability of stable revenue sources by concentrating resources on premium assets

Narrowing the brand universe and concentrating investment in "premium" brands

- Focus managerial resources on "Yebisu," "Black Label," and "Mugi-to-Hop," which account for 3/4 of beer case sales
- Sales volumes have greatly exceeded total demand for "Yebisu," "Mugi-to-Hop," and core 3-brand-total, raising market share

Core Brands

Bolster soft drinks / foods / restaurant businesses through pursuit of synergies with POKKA CORPORATION

- Extend POKKA CORPORATION's know-how in core products and businesses to whole group
 - Strengthening foods segment via newly acquired soup business
- Expand sales of Sapporo soft drinks through POKKA's vending machines sales channels
- Enhance profitability by extending Sapporo's know-how to POKKA's soft drinks business
 - Reducing number of products and concentrating investment, etc.

Selected POKKA Brands

Use of "premium" real estate holdings

- Retain prime properties, centering on holdings in Ginza and Ebisu—some of the most valuable areas in domestic real estate
- Maintain and bolster stable revenue structure by enhance value of existing real estate holdings (internal growth) and through new property acquisitions (external growth)

Core Real Estate Holdings

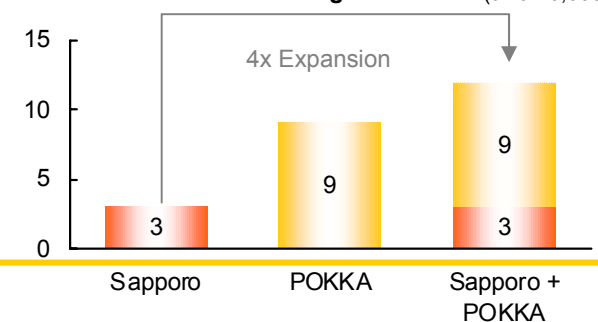

Premium Beer vs. Regular Beer Trend

(Growth rates; 2006 = 100%)

Increased Access to Vending Machines (unit: 10,000)

- Prime properties in great location of central Tokyo

4. For Reference:2011 Full-Year Earnings Forecasts

※The company has made no revisions to its consolidated earnings forecast for the year ending December 31, 2011, since it last revised its forecast on June 30, 2011.

Please also refer to our June 30 news release “Supplementary Information on Consolidated Earnings”.

SAPPORO

2011 Consolidated Earnings Forecasts (vs 2010)

We expect consolidated sales to rise as positive contributions from the International Alcoholic Beverages and Soft Drinks combine with the consolidation of the POKKA Group to offset disaster-induced earnings declines at the Japanese Alcoholic Beverages and Restaurants businesses.

We expect operating income to rise ¥2.5 bn YoY on expected contributions from consolidation of the POKKA Group and earnings growth at the Japanese Alcoholic Beverages business. We look for ordinary income to rise for the fifth straight year.

However, we project net income to fall ¥8.0 bn owing to the absence this year of the ¥8.1bn extraordinary gain on asset sales in 2010 and the posting of extraordinary losses of ¥1.0 bn on asset retirement obligations and ¥5.0bn for disaster-related costs.
