#### ★Retail Price Breakdown (350ml can)

## Demand Trends and Situation (Beer-type beverages)

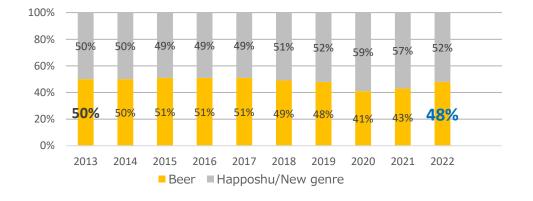

Since there are currently differences in the liquor tax amount for beer, happoshu, and new genre (from high to low), the order of shop prices is also beer, happoshu, then new genre in accordance with the liquor tax amount.

Since there have been gradual liquor tax revisions with the consolidation of liquor taxes on beer-type beverages scheduled for 2026, we **expect a shift in demand** from happoshu and new genre beverages to **beer and RTD**.

#### **★**Total demand Composition of taxed shipments by product category

We implemented structural reforms in response to the decrease in demand for dining out resulting from the COVID-19 pandemic. (Closing of unprofitable locations, opening of locations with high investment efficiency, etc.)

While demand in the restaurant industry will likely remain uncertain, we expect the gradual recovery to continue.

We will build a robust management structure to strengthen coordination with the Alcoholic Beverages Japan business as a hub for brand communication.

Core property value enhancement and community building Building an asset turnover business model (Diversification of revenue structure and improvement of asset efficiency)

In addition to continuing to increase the value of the rental real estate business, our main business in this field, we will take a medium- to long-term approach to transition the revenue structure to areas other than rental real estate business.

- •We will enhance the competitiveness of Yebisu Garden Place by introducing renewable energy, updating the air conditioning, and otherwise enhancing value, as well as by promoting community building.
- •In the Sapporo area, in anticipation of the extension of the Hokkaido Shinkansen rail line to Sapporo, we will redevelop Sapporo Garden Park, the origin of the brand, to attract customers and reinforce our brand communication ability.
