2. Reason

The Company considers the appropriate return of profits to its shareholders as a fundamental aspect of management policy and has adopted a basic policy to undertake stable dividend payments taking into consideration the Company's performance and financial condition.

Meanwhile, the Company has been executing the "First Medium-Term Management Plan 2020" since 2017 based on the "Sapporo Group Long-Term Management Vision 'SPEED150'" that was announced in November 2016. Under this "First Medium-Term Management Plan 2020", the Company is pursuing a dividend payout ratio of 30% (*) as a financial indicator for return of profits to shareholders. Given the foregoing situation and taking into consideration the Company's performance in the current business term, the outlook for the business environment and other factors, the Company has decided to provide dividends from surplus of 42 yen per share (an increase of 2 yen compared with the previous term) for the current term.

(*) If net profit for the current term accruing to the parent company shareholder changes significantly because of an extraordinary profit or loss stemming from special factor, the impact from this may be taken in consideration when deciding a dividend amount.
