**Notice Regarding the Commencement of the Assignment for the Benefit of Creditors Process of a Specified Subsidiary**

ANCHOR BREWING COMPANY, LLC (hereinafter referred to as “Anchor”), a 100% consolidated subsidiary of Sapporo Holdings Limited (hereinafter referred to as the “Company”), resolved today (July 11, 2023, US time) to commence the Assignment for the Benefit of Creditors process (hereinafter referred to as the “ABC”). We inform that we also have approved Anchor’s commencement of the ABC at the Board of Directors meeting held today.

Additionally, we inform you that we expect to record losses incurred due to the commencement of the ABC as other operating expenses, etc., and that this matter falls within a change in a specified subsidiary.

1. Reasons for the Commencement of the ABC

In 2017, we implemented the acquisition of Anchor in order to expand our beer business in the US market.

However, Anchor was significantly affected by the impact of the novel coronavirus, and such impact was particularly prolonged in the San Francisco area. As a result, Anchor’s sales have significantly decreased. Over the past several years, we implemented a variety of measures to improve the business, such as releasing new products, product renewals, and making brand investments. However, Anchor’s business performance continued to be sluggish. Since it would be difficult to improve profitability in the medium to long term, Anchor decided to commence the ABC.

We launched our four-year plan, “medium-term management plan (2023-26),” this year and are working to increase the corporate value through the twin pillars of “structural reforms and business growth.”

We will promptly dispose of businesses that we have classified as a business to be disposed of and resolutely implement structural reforms. Meanwhile, in the US, which serves as a growth driver, we will aim to achieve further growth centering on SAPPORO PREMIUM BEER by generating synergies with STONE BREWING CO., LLC, which we acquired as a subsidiary in August last year.
